

P.5 and P.6 Students Play Rummikub

By Henry Tsang (5D) and Crystal Wan (6A)

On 19th January, P.5 and P.6 students played Rummikub at school. Rummikub is a Maths game. You need two to four people to play Rummikub. There are two wild tiles and the tiles have some numbers and colours on them. There are 106 tiles. Miss Lam and Mr. Ng invited students from Sempel Secondary School to teach us how to play. The game helps people to see things more quickly.

Four P.6 students playing Rummikub excitedly.

The rules in Rummikub are: First, make a group of four people. Then, each person takes fourteen tiles. After that, they put the others tiles in the middle. Finally, each player has one minute to make a group of three to thirteen tiles (the same number but different colours) or a run (numbers going up in the same colour). A player wins **when he/she doesn't have any tiles left.**

We interviewed Kelly Chan (6A):

Do you think this game is good? Why?

Yes, I think this game is good because it can test how quickly you can see things.

Did you enjoy this game? Why?

I enjoyed the game very much because it was very exciting.

Do you think this is easy to play? Why?

It is not easy to play but if you play a lot of times and know all the skills, you will think it is easy.

All School Members Go to School Picnic

By Max Chan (4B) and Yoyo Wong (5C)

On 25th January, 2013, all school members went to Jordan Valley Park to have a school picnic because our school wanted us to relax.

P.4 students playing the hula hoop game, trying to get the prize.

We had a competition for each grade. The winners got prizes. It was exciting. The parents of the students could go to Jordan Valley Park too! It was more fun that way. But there was bad news. There was no food to buy at the park. We had to bring our own lunches.

We took about an hour to get to the park because it is near Kwun Tong. But many students thought it was okay because they could play with their friends on the bus. We could do different **things in the park. We could play in the Children's Play Area or Central Lawn.** We could play with model cars in the model car area. Jordan Valley Park had fresh air because there were many plants there and the students loved running on the lawn.

Coco in 4B said that she thought the picnic was fun because there were many things to play with.

Smiling in 4A said, "I thought it was exciting and I brought sushi to eat."

Lee Kam Has a Fun Fair

By Fiona Fung (6C) and Jessica To (6B)

Our school had a fun fair on 22nd December, 2012. It was held with Leung Kau Kui College, Tam Pak Yu College, Leung Lee Shau Yu Kindergarten and our Lee Kam Primary School. We also welcomed kindergarten kids!

The fun fair had a lot of games and activities. The computer room and art room had many interesting games. In the Computer Room, students could use the computers to play funny computer games so that students could learn a lot. Also, in the Art Room, students could do arts and crafts **with their parents. It was very fun. Wylie in 4E said, "I felt happy when I was doing arts and crafts."**

And also, there were English activities too. Students could get stamps after they played the games. When they had five stamps, they could have a small gift. When they had twelve to fifteen stamps, they could get a big prize. A lot of students got a big prize. They were happy!

On the day, students could also read interesting books in the school library. Teachers would read the story books to the lower students. The children learned a lot when they read the books.

We could also see the students' performances. The students were very energetic. All the parents said they were cute!

All the students and parents who came to the fun fair that day were very excited. Wylie in 4E said, "I hope our school can have more fun fairs in the future because we can play a lot games at the fun fair!"

6AB, A Special Class

By Ceci Chan (4A) and Connie Wong (6A)

At the beginning of this year, there was a new class called 6AB. 6AB has eleven students from 6A and also eleven students from 6B. The classroom is on the first floor. It is different from the other classrooms because the classroom is the **smallest classroom. The classroom's number is 104.**

Lee Kam has 6AB because Miss So said that she **wants 6A and 6B's results to be better. 6AB learns three subjects—Chinese, English and Maths in Room 104.** The Chinese teacher is Miss Wong, the English teacher is Miss Koo, and the Maths teacher is Miss Yeung. **In Primary 6, the students' exam results need to be given to the secondary schools. If the results are good, then they can go to a good secondary school.**

Miss Koo said, "I think 6AB's results are good. Some students are very hard-working but some students need to be more hard-working."

We asked Kelly Chan in 6A what she thinks **about 6AB. She said, "Although we can't learn Chinese, English and Maths together, we have friendship forever."**

P.4 to P.6 Go to Watch Musical

By Vienne Chiu (4C) and Kelvin Hui (4D)

On 21st January, P.4 to P.6 pupils went to watch a **musical called "Field of Dreams" at the Cultural Centre in Tsim Sha Tsui.** Miss Chan and Miss Hung went with them. The musical was two hours long. There were thirty-six people on the stage. It was about a boy, Cheng Hoi Mun who loved to play football, and a girl, Kun Cheung, who supported the boy. At last, the football team won the competition. The girl and the boy fell in love but the girl had to go to Shanghai and the boy had to go to Japan. The students went back to school after watching the musical to join the birthday party at school.

The students could choose to go to the musical **or go to the birthday party. Some students didn't want to go because they wanted to stay at school to have a birthday party.** The birthday party was for the students who have their birthdays from September to February but all the students could join in.

We asked Melissa in 4C for her ideas about the **musical. She said, "It was a good performance. It was a good story too."**

★ Teachers' Corner ★

The Teachers' Corner brings you interviews and articles on your favourite Lee Kam teachers. Who would you like to hear about next? Write to leekamnews@gmail.com to share your ideas!

Mr. Chan, 4E's Class Teacher

By Gordon Lee (4E), Wylie Tsang (4E) and Ronica Yau (6B)

Mr. Chan is 4E's class teacher. He teaches Maths, PE, Computer and the football team. His favourite sport is football because it is interesting.

Mr. Chan likes playing football in his free time.

He likes the Lee Kam football team too! He lives in Fanling and he has a wife. He gets up early at 6:15 a.m. and goes to school by car every day. He became a teacher in 2007. Mr. Chan likes the colour green because it is beautiful and he likes eating chocolate.

We asked some students what they think of Mr. Chan. **Coco Yip (4B) said, "I think he is a good teacher because he is kind."** **Celia Tsang (4E) said, "I think he is a smart and clever teacher."** **And Smiling Po (4A) said, "Mr. Chan is kind because he does not punish students angrily."**

Q: Why did you want to be a teacher?

A: I wanted to be a teacher because being a teacher has many challenges.

Q: Do you like sports? Why?

A: Yes, because they are fun.

Q: When did you begin to learn sports?

A: I began to learn sports in primary school.

Q: When is your birthday?

A: It is 13th July.

Wreck-It-Ralph

By Ryan Kan (4E) and Celia Tsang (4E)

The movie is about characters of 1980's video games like Pacman and Super Mario. The main character, Wreck-it-Ralph, always ruins buildings. Fix-it-Felix saves the buildings by fixing everything with a golden hammer. So everyone likes him.

Ralph is tired of playing the role as a bad guy because everyone is scared of him. He wants to prove that he is a hero. By accident he gets in the racing game "Sugar Rush" and meets Vanellope (a racer outcast). Ralph helps her win the racing competition by building her car.

Wreck-It-Ralph always destroys buildings.

Ralph not only helps Vanellope to win the racing competition but also saves the game world from destruction. Sergeant Calhoun tells Ralph the King Candy wants to destroy the game world.

The part we liked the most was when Vanellope raced with her candy car and won because it was exciting. We hope we can watch it again.

We think the Lee Kam students will like this cartoon movie. It is interesting because of the funny dialogue and it's also a 3-D movie.

Chinese New Year Plans and Ideas

By Smiling Po (4A) and Coco Yip (4B)

Chinese New Year is an important festival in China. It is in January or February. This year, Chinese New Year was on 10th February. It was originally a day to **scare off the monster that came to people's homes.** Its name was Nianshou. They used fireworks to scare it off. People will visit their relatives, give red packets to others, watch fireworks, go to the flower market and more. **This year, our school's Chinese New Year holidays were from 7th February to 17th February.**

We asked twelve students what they did in Chinese New Year. Most of the students watched the fireworks in Chinese New Year because they thought the fireworks were beautiful. Three students visited their relatives and three students shopped in the flower market. Two students saw the dragon dance.

We also asked the students what they like most about Chinese New Year. Most students like red packets most because they think they can get more money. Three students like fireworks the most. Two students like chocolates the most because they are yummy and tasty. Two other students like the dragon dance.

Chinese New Year is an important festival, so we should treasure it.

Lee Kam in Dragon Dance Competition

By Ting Lai (5B) and Rapheal Sin (6B)

On 20th January, 2013, there was a dragon dance competition in Sha Tin. There are 9 or 14 people in a team. There are 9 people in a team when there are no students playing the drums. If there are 14 students in the dragon dance team then there are five students playing the drums. Lee Kam won the competition last year, but this year Lee Kam got second place. The team felt excited and happy.

Dragon dancing is a hard sport. It is heavy to carry a dragon so the dragon team members have to be powerful and the dragon dance has to be very fast. The dragon dance team has P.3, P.4 and P.6 students. Mr. Liu helps the team in training.

About Dragon Dancing

Dragon dance is a sport from China. It has a very, very long history. The dragon is a lucky animal in China. All of the Chinese people think that they are the sons and daughters of the dragon. Chinese people like dragons very much. We can say, if a place has Chinese people, it will also have dragon dancing too. Dragon dancing trains us to be stronger.
