Whole School Goes on Picnic!

By Tiffany Leung (6C), Yoyo Wong (4C) and Fiona Fung (5C)

On the 22nd of October, 2011, all teachers, students and about three hundred parents went to Hong Kong Park. They arrived at 9:00 a.m. by school bus and left at 3:00 p.m. The students were excited before the trip because they love playing games and they don't usually get to play together with the whole grade.

When everyone got there, they took a photo. Then, the students followed the teachers to the big playground that looked like a football field. They all ate something and took a rest there. In the afternoon, they

Students play the hula hoop game.

played a special game with classmates. It was a pass the hula hoop game. The students passed the hula hoop with their whole body, but using no hands and no touching. They

were like snakes. It was fun! The game was quick and exciting. At last, some of the classes, like 4E, 5E, and 6B, won the game. The winners got prizes, like food and biscuits.

After playing the game, everyone had lunch. Students had ham sandwiches and bread. Next, it was free time, and they could do whatever they wanted. Some students walked around Hong Kong Park. There are many interesting places in Hong Kong Park. Students could watch birds that were colourful and sang some wonderful songs. Students could see a tall tower and walk up to the top. It had more than one hundred steps! All visitors could see the view from there. Some students felt tired after they went up the tower. Others said they saw a few men doing exercise by running up the tower many times. Those men are very strong!

The teachers felt relaxed that day because they did not have to teach the children or punish them. Eden Chan in 5E said, "The picnic was good but tiring!"

Lee Kam Students Enjoy Halloween

By Carmen Or (5A) and Crystal Wan (5A)

On the 31st of October, our school had a Halloween party. More than one thousand students joined the Halloween party. Our school is very keen about health, which means it

does not sell any sweets or soft drinks. But on that day, we could eat sweets and chocolates. The party was during recess and

lunch time. All students wore different kinds of costumes.

About 20% of the girl students wore witch costumes, and others wore princess, king and Spiderman costumes. All students felt excited and happy. They said trick or treat to other students and teachers to get sweets. Even some teachers wore costumes! The teachers also felt happy because the students were very quiet on that day during their lessons. The school will have another Halloween party next year.

New Library Opens

By Henry Tsang (4C) and Sam Wong (6D)

In October, our school library opened. It has been open for about one month. It is beautiful and new, but it is smaller than Ho Yat Tung's old library. There are some interesting chairs and sofas. They look like balls, and they are comfortable. Also, the teachers put many colourful and beautiful decorations on the wall.

There are many new books, like Math books, English stories and Chinese books. The most popular story is "Three Little Pigs." Most of the P6 students like reading science books because they can learn more, but many students like to read stories because they are interesting. Although not all books are there, a lot of students love the library because they can choose between Chinese and English books, and we can learn more English too. There are also some magazines, so we can learn about the news. Students can go there during recess and after lunch, but it is closed before exams.

Audrey Chan in 6D said, "I feel happy and excited in the library because the books are interesting."
Do you like going to the library? Go borrow some books if you like.

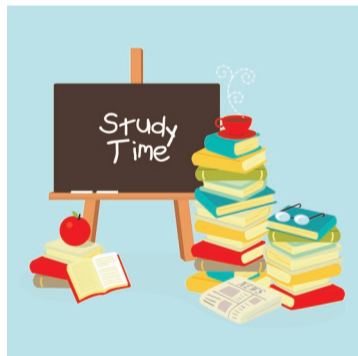

Young Reporters Share Goals for the New Year!

Louie Wong (5C)

My goal is to pass the grade 5 piano exam. I am in grade 2 piano now. I started to play piano when I was six years old. My sister passed the grade 8 piano exam last year, and I don't want to fall behind her. I can be more hardworking and practise the piano each day for twenty to forty minutes.

I also want to be first in P5. This is difficult because there are more pupils than before, but it is important to me to get into a top secondary school.

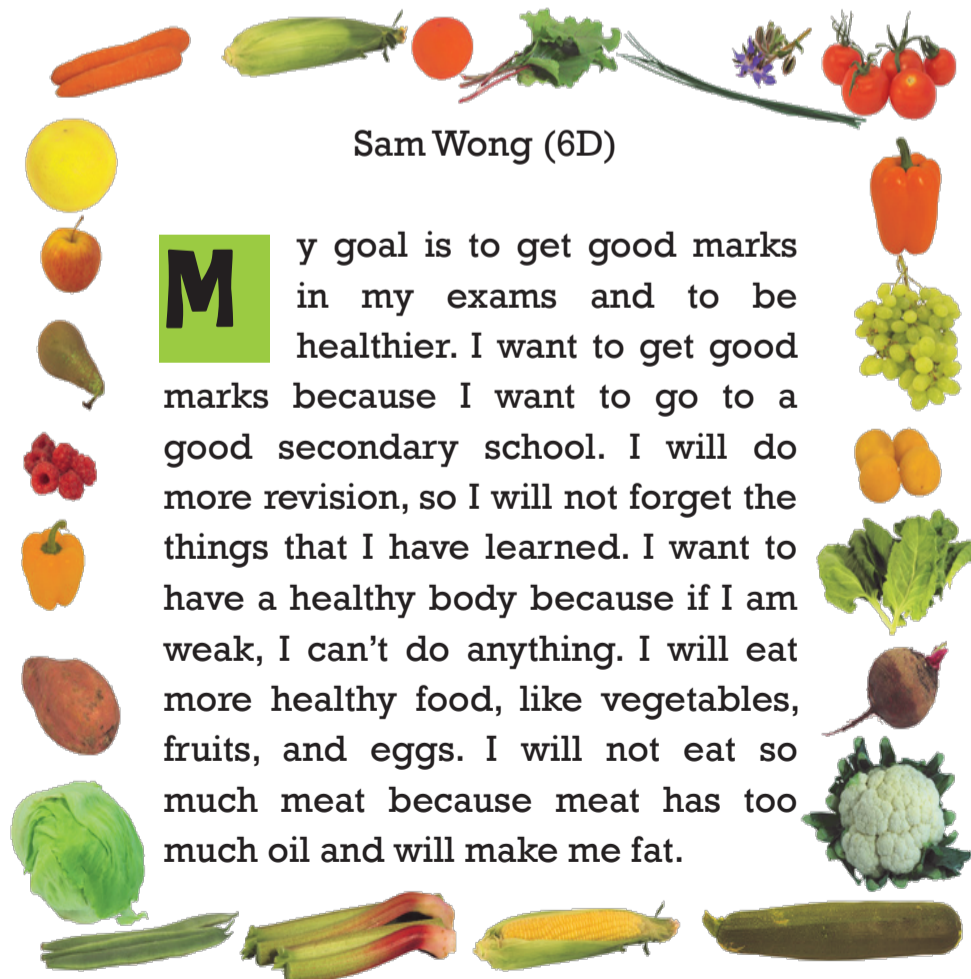

Crystal Wan (5A)

My goal this year is to participate in more activities so that I can learn more things. I will join piano class. In piano class, I will try to play well and learn about melody. I hope I can be good at that!

Sam Wong (6D)

My goal is to get good marks in my exams and to be healthier. I want to get good marks because I want to go to a good secondary school. I will do more revision, so I will not forget the things that I have learned. I want to have a healthy body because if I am weak, I can't do anything. I will eat more healthy food, like vegetables, fruits, and eggs. I will not eat so much meat because meat has too much oil and will make me fat.

Kimberley Tam (6D)

My goal this year is to get good marks so that I can go to a good secondary school.

Also, I want to be taller. I will join the basketball team, and I will work hard to reach my goal and pay attention to the lessons. I will do exercises every day too. It is important to me because then my future will be more interesting and other people will not laugh at me because I am short.

Sky Garden Mystery

By Audrey Chan (6D) and Ting Lai (4B)

Our school, Lee Kam Primary School, is going to have a sky garden, and the children are very excited. But no one has any information about the sky garden! It is mysterious.

We only know that the sky garden is on the sixth floor, and the road between the sixth floor and the sky garden has been finished. The sky garden has just been finished too! We don't know any more about the sky garden because it is locked and no one can go inside, but if you want to have a look at it, we will tell you how to go there. First, go to the sixth floor and walk in front of the 6E class and turn your whole body to the bridge and keep going. When you see a small gate, inside is the sky garden.

Kammy in 4B said, "I hope it has many flowers."

Angel in 4B said, "I hope we can go to the sky garden."

Other sky gardens are beautiful too, and we hope our sky garden will be as beautiful as the sky garden at HSBC Mong Kok Building. We also hope our sky garden gives everyone a relaxing feeling.

School Holds First Birthday Parties

By Kimberley Tam (6D) and Jessica To (5B)

On the 18th of September, our school held birthday parties. We celebrated the birthday students in our own classrooms, and we held the parties after we went to the school picnic in Hong

Mr. Liu Makes Children Laugh

By Raphael Sin (5B) and Ronica Yau (5B)

Mr. Liu is the 5B class teacher. He teaches 5B Math and the PE lesson. He always makes children laugh, and he tells funny stories.

One time, he told a story about how he was a naughty boy when he was young. His teachers would use a ruler to hit the palm of his hand, but Mr. Liu would quickly move his hand away. He said it did not hurt, but his hands would be sweaty because he was scared.

We know Mr. Liu was naughty when he was young, but now he is an excellent teacher. He does not want students to get bored. Sometimes students do not do their work, so he tells funny stories to help us.

We also like it when the football team wins a football match because Mr. Liu and the team will sing some famous traditional songs. Mr. Liu is amazing!

Kong Park.

The parties were for students who had birthdays from September to December. We decorated our classrooms before the parties. Halloween is in October, so we put some Halloween stickers, like ghosts, witches, spiders, and pumpkins, on the windows, doors and walls. The students liked them very much. We also stuck some photos about birthdays, like some birthday cakes and hats.

(continued on p. 4)

New Playground is Finished!

By Steven Tang (6D) and Viann Lau (6C)

On 14th November, workers finished our beautiful playground. The whole school had been waiting for two months!

When there was no playground, students ate food and talked in the classrooms. The students say the new playground is big and beautiful. The teachers also say that it is big.

The new playground is much bigger than the old one. It is actually two times bigger than the old one was. There are some things that no one knows about it, like when the running track will open. There are more things to use, like basketball nets and two football goals.

Kelvin Wong in 6C said, "I like this playground very much because it's bigger."

Kiki Po in 6D said, "I like this playground very much because it is beautiful."

The playground is blue, red and yellow. The floor is made of leather rubber so that the students won't slip and fall down.

(School Holds First Birthday Parties, continued from p. 3)

We did many interesting things, like playing games, singing a song and giving gifts to the birthday students. Some students' parents brought birthday cakes. The birthday cakes were delicious and sweet! Some of the classes ate chocolate cake and others ate candies.

Before we ate the birthday cakes, we took photos. Students did not want to wear uniforms because the photos would be more beautiful, and students would be more comfortable out of uniforms.

Crystal in 6D said, "I felt happy and enjoyed the birthday party very much because I could play with my friends and eat birthday cake."

We hope the birthday parties in the future will come very soon! Next time, we hope we can have the party on the playground with the whole school. It would be even more exciting.

Goals for the New Year

Carmen Or (5A)

My goal this year is to participate in more activities so that I can learn more new things. This year, I will join a badminton team and a piano class.

On the badminton team, I will try to play and learn more about badminton. I hope I can do well in badminton.

Jessica To (5B)

My goal is to get good marks on my tests, so I can go to a good secondary school. Also, I want to join the badminton team because I should do more exercise to keep fit. These goals are important to me because they are my dream. I will work hard to reach my goal.

Tiffany Leung (6C)

My goals this year are to get good results in Chinese, English, Maths and General Studies. It is important because I am in P.6, and I need to choose a good secondary school!

I also want to participate in more activities so that I can learn more things. I will study hard and listen to the teacher in lessons.

These goals are very important because my wishes can change my whole life. I can study in university and learn new things. I hope my goals can come true!
